Alan Ranger Photography Academy - Complete Specification

Document purpose: Standalone reference for Claude and humans who cannot access the codebase. Covers public funnel pages, Memberstack/Stripe membership, gating, automated emails, schema/SEO, analytics, and safe-edit rules.

Version: 1.1
Assembled: 4 June 2026
Metrics snapshot: 4 June 2026 (Supabase Academy + booking sheet)
Primary domains: www.alanranger.com (Squarespace), alanranger-modules.vercel.app (Academy backend), schema.alanranger.com (product schema only - not Academy funnel pages)

Supabase projects:
* Academy app data: dqrtcsvqsfgbqmnonkpt (trials, emails, exams, Q&A)
* AI GEO Audit / booking: igzvwbvgvmzvvzoclufx (revenue, GSC, page policy)

Table of contents

1. Executive summary and funnel flow
2. Entry and landing pages (public)
3. Membership, plans, and paywall
4. Free course vs paid membership
5. Automated email workflows (timing, triggers, full copy)
6. Schema and SEO
7. Tracking, revenue, and dashboard classification
8. Backend architecture (Vercel, Supabase, Memberstack)
9. Squarespace code injection map
10. Constraints - do not break
11. Safe to change for landing optimisation
12. Investigation findings and open actions
13. Six-month performance snapshot (admin engagement data)
14. Appendix - default email bodies (verbatim)

---

1. Executive summary and funnel flow

The Academy is a Memberstack v2 + Stripe membership on Squarespace. The public SEO entry is /free-online-photography-course. The checkout entry is /academy/login (Memberstack signup modal with Stripe prices). After signup, members use /academy/dashboard and gated /academy/* app pages.

There is no separate pricing page - £0 trial and £79/year are shown on the canonical lead page and login page.

14-day free trial (Stripe price ID is legacy-named "30-day"). Post-expiry SAVE20 (£59 first year) applies for 7 days (email Day +7 and dashboard modal). REWIND20 win-back emails at Day +20, +30, +60 for non-converters.

VISITOR PATHS
==========

```
[SEO / nav] --> /free-online-photography-course (public, Course+FAQ schema)
            |
            +--> CTAs --> /academy/login OR inline data-ms-modal signup
[Home banner] --> /free-photography-course (public banner page)
            |
            +--> Banner button --> /academy/login
```

/academy/login --> Memberstack modal + Stripe
  |-- Trial: prc_30-day-free-trial-mg18p0u9z (14 days, plan pln_academy-trial-30-days--wb7v0hbh)

|-- Annual: prc_annual-membership-jj7y0h89 (£79/yr)

Post-signup --> /academy/dashboard (member home)
--> /academy/online-photography-course, exams, practice packs, Q&A, etc.

Logged-out hit on /academy/* (except login, upgrade, trial-expired) --> redirect /academy/login

EMAIL LIFECYCLE (vs trial_end_at)
==========
Day -7 mid-trial (Vercel cron, 09:00 London)
Day -1 final day (Vercel cron)
Day +7 SAVE20 offer (Vercel cron)
Day +20 REWIND20 #1 (Zapier Friday 09:00 London)
Day +30 REWIND20 #2
Day +60 REWIND20 #3 (max 3 per member)

---

2. Entry and landing pages (public)

2.1 Public funnel URLs

URL | Role | Paywall | Notes
/free-online-photography-course | Primary SEO lead magnet | None | Canonical; nav "Academy" and Courses submenu point here. Tier E. ~660 clicks / 47.6K impr per 28d (GSC).
/free-photography-course | Home banner anchor page | None | Not 301'd to canonical (CANONICAL-DECISION May 2026). Banner edited in SQ editor; body from rewrite v4.
/academy/login | Signup / login hub | None | Only reliable Stripe checkout via data-ms-modal. Canonical snippet v4.
/academy/upgrade | Expired-trial reactivation | None (public when logged out) | SAVE20 / REWIND checkout via #arp-upgrade-checkout-btn
/academy/trial-expired | Legacy | - | 301 recommended to /academy/dashboard (dashboard modal handles SAVE20)
/online-photography-course | Legacy | - | 301 to /free-online-photography-course

2.2 Gated member app URLs (logged-out --> login)

Router v4.3.3 redirects any /academy/* except login, trial-expired, upgrade when not logged in.

Examples:
* /academy/dashboard
* /academy/online-photography-course
* /academy/photography-checklists
* /academy/photography-exams-certification
* /academy/photography-course-feedback
* /academy/photography-questions-answers
* /academy/photography-practice-packs
* /academy/modules, /academy/exams, /academy/ebook

Global guard v1 additionally checks trial vs annual on a named protected-path list (dashboard, practice-packs, Q&A, online-course, feedback, exams, checklists).

2.3 Squarespace commerce product pages (secondary)

Under /photography-services-near-me/:
* premium-photography-academy-membership (subscription SKU)
* photography-foundation-course-ebook, bundles

These use Product JSON-LD via Schema Tools + schema.alanranger.com. Main trial funnel uses Memberstack on /academy/login, not SQ cart.

2.4 Inbound links and CTAs

Source | Target | CTA

Site nav "Academy" | /free-online-photography-course | Academy
Courses submenu | /free-online-photography-course | Free Online Photography Course
Home banner /free-photography-course | /academy/login | Start free trial (was ENROL NOW)
Canonical page body | /academy/login + inline trial buttons | Start my free 14-day trial; Create account / login
Newsletter form (bottom of funnel pages) | Redirect to canonical after submit | Lower-commitment email capture

2.5 Page rewrite sources (Squarespace Code Blocks)

Page | Active rewrite file | Status
/free-online-photography-course | 02-free-online-photography-course.html v3.2 | Active - Course+FAQPage, dual-tier card, Memberstack price IDs
/free-photography-course | 03-free-photography-course.html v4 | Active - below native banner
/academy/login | Academy/academy-login-squarespace-snippet-v1.html v4 | Canonical - not 04-academy-login.html
/academy/trial-expired | 01-trial-expired.html | DEPRECATED - use 301 to dashboard

When pasting v3.2 on canonical page: keep sample-lessons 6-link grid and bottom newsletter form; delete 11 duplicate marketing blocks per file header checklist.

---

3. Membership, plans, and paywall

3.1 Stack

Layer | Technology
Membership | Memberstack v2 - site-wide header injection, app app_cmjlwl7re00440stg3ri2dud8
Payments | Stripe via Memberstack data-ms-price:add
Post-trial checkout API | Vercel alanranger-modules.vercel.app - api/stripe/create-upgrade-checkout.js
Exams / Q&A / config | Same Vercel app + Supabase Academy project
Auth callback | memberstack-client.alanranger.com/auth/callback

3.2 Plans and prices

Offer | Stripe price ID | Plan ID | Price
14-day trial | prc_30-day-free-trial-mg18p0u9z | pln_academy-trial-30-days--wb7v0hbh | £0 at signup (no card on trial per copy)
Annual membership | prc_annual-membership-jj7y0h89 | (annual plan via Memberstack) | £79/year
SAVE20 (post-trial) | Auto at checkout in Day +7 to +13 window | Promo SAVE20 | £59 first year (£20 off)
REWIND20 (lapsed) | rewind20-lapsed-trial-winback coupon | Promo REWIND20 | £59 for 7 days from each send

Pricing display rule (May 2026): Pre-trial pages show £79 only. SAVE20/REWIND20 only on post-trial surfaces (emails, dashboard modal, /academy/upgrade).

3.3 Gating implementation

1. Footer router v4.3.3 (academy-stable-routing-ui-suppression-v4.3.3.html) - logged-out on app paths --> /academy/login; logged-in on login --> /academy/dashboard; hides nav/footer on app pages.
2. Global guard v1 (academy-global-guard-squarespace-injection-v1.html) - trial plan access on protected paths. Do not run duplicate old routers.

3.4 Checkout mechanics (Memberstack DOM attributes)

Attribute | Effect
data-ms-modal="login" | Login modal
data-ms-modal="signup" + data-ms-price:add="<price_id>" | Signup + Stripe checkout in modal
id="arp-upgrade-checkout-btn" | Expired-trial reactivation (upgrade page, dashboard)

Plain href to /academy/login does NOT run checkout for expired trials - must use modal or upgrade button.

3.5 Required button IDs (site JS)

* Container: arp-academy-login on /academy/login
* Buttons: arpLoginBtn, arpTrialBtn, arpAnnualBtn

* Upgrade: arp-upgrade-checkout-btn

3.6 Post-signup flow

1. Memberstack + Stripe modal completes.
2. Router sends logged-in users from /academy/login to /academy/dashboard.
3. Dashboard snippet calls /api/academy/trial-status; opens upgrade modal with SAVE20 when in grace window.
4. Email links use signed URLs to dashboard ({{upgradeUrl}} / {{dashboardUrl}}) - not raw Stripe checkout (deprecated path lacks Memberstack metadata).

---

4. Free course vs paid membership

Question | Answer
What is /free-online-photography-course? | Public marketing page for the Academy product - not the course app itself.
Is it a free tier of content on that URL? | No - content is under /academy/* after login.
What gates the landing page? | Nothing - fully public. Optional newsletter at bottom.
How do visitors convert? | CTA --> login or inline data-ms-modal trial signup --> dashboard.
Trial vs paid | Trial = full module/exam access for 14 days; some downloads gated until paid per copy.

---

5. Automated email workflows

5.1 Infrastructure

Item | Detail
Sender app | https://alanranger-modules.vercel.app
Transport | Nodemailer, Gmail SMTP (ORPHANED_EMAIL_FROM)
BCC | info@alanranger.com on lifecycle sends
Default copy | lib/emailTemplateDefaults.js
Overrides | Supabase academy_email_templates (admin Emails tab)
Log | academy_email_events - member_id, stage_key, sent_at, subject, status
Trial dates | academy_trial_history (+ reengagement_* for REWIND)

History: Trial emails Day -7, -1, +7 moved from Zapier to Vercel Cron ~Apr 2026. Pre-Apr-21 rows in academy_email_events may be sparse; Zapier was still sending before cutover.

5.2 Lifecycle schedule (14-day trial, anchor = trial_end_at)

Stage key | Timing | Scheduler | Webhook | Coupon
day-minus-7 | 7 days before expiry | Vercel Cron 08:00+09:00 UTC; send only London hour 9 | trial-expiry-reminder-webhook?daysAhead=7 | None
day-minus-1 | 1 day before | Same | ?daysAhead=1 | None
day-plus-7 | 7 days after expiry | Same | ?daysAhead=-7 | SAVE20 -> £59, 7-day window
day-plus-20 | ~20 days after | Zapier Friday 09:00 Europe/London | lapsed-trial-reengagement-webhook | REWIND20
day-plus-30 | ~30 days after; >=10d since attempt 1 | Same Zap | Same | REWIND20
day-plus-60 | ~60 days after; >=30d since attempt 2 | Same | Same | REWIND20 final (max 3 total)

REWIND rules: 180-day lookback; not converted; max 3 emails; unsubscribe {{unsubUrl}} on every REWIND mail.

5.3 Subjects (defaults)

Stage | Subject line
Day -7 | You're Halfway Through Your Free Trial - 7 Days Left
Day -1 | Your Academy trial ends tomorrow - keep everything you've built
Day +7 | Your Academy trial ended - {{couponCode}} is yours for {{daysLeft}} more {{daysWord}}
Day +20 | Your Academy trial - £{{save20DiscountGbp}} off to come back and pick up where you left off
Day +30 | Still thinking it over? £{{save20DiscountGbp}} off your Academy annual membership (7 days)
Day +60 | Final offer - £{{save20DiscountGbp}} off your Academy annual membership (7 days only)

5.4 Content summary by stage

Day -7: Mid-trial check-in; optional activity block; 5-step plan (modules 1-4, exams, packs 7-10, checklist, Q&A); member outcomes; £79/year; signed upgrade link; expiry date.

Day -1: Ends tomorrow; activity block; 3 quick wins; long members-only + full feature lists; £79; no discount.

Day +7: Trial ended; SAVE20 £59 for 7 days; quick wins; feature lists; one-click link with coupon pre-applied in dashboard modal.

Day +20/30/60 (REWIND): Shared body - days lapsed; Academy grew; REWIND20 £59 for 7 days; activity; quick wins; features; social proof; signed dashboard URL; unsubscribe footer.

5.5 Other automated emails

Email | Trigger | Schedule | Subject
Orphaned signup | Memberstack account, no plan | Zapier ~every 2h | Complete Your Academy Signup - Action Required
Welcome / new membership | New member | Zapier "Academy New Membership" | Not in repo - copy in Zapier only
Account cleanup | No plan 8h+ | Vercel cleanup-cron 23:00 UTC | (deletes account - not marketing)

Orphan body summary: Incomplete checkout; visit signup page; account removed after 8 hours if not completed.

5.6 Vercel crons (vercel.json)

Path | Schedule
/api/admin/refresh | 30 * * * * (Memberstack --> Supabase cache)
/api/admin/cleanup-cron | 0 23 * * *
Trial webhook daysAhead=7,1,-7 | 0 8 * * * and 0 9 * * * each

5.7 Merge tags (email templates)

firstName, fullName, expiryDate, upgradeUrl, dashboardUrl, unsubUrl, activityBlock, daysUntilExpiry, daysLeft, daysWord, daysLeftPhrase, daysLapsed, annualPriceGbp (79), save20PriceGbp (59), save20DiscountGbp (20), couponCode (SAVE20 or REWIND20)

Full default bodies: See Appendix (Section 13).

---

6. Schema and SEO

Page / area | Schema source | @types
/free-online-photography-course | Inline Squarespace code block (rewrite v3.2) | Course, FAQPage
/free-photography-course | Body blocks + banner (editor) | Marketing; rewrite v4
/academy/login | Page snippet | Not product pipeline
/academy/* app | Usually none from Schema Tools | App UI
SQ product membership/ebook URLs | schema.alanranger.com fetch | Product + Offer

Academy funnel pages do NOT use the product/event schema.alanranger.com injection pipeline.

AIO gap (May 2026 investigation): Alan ranks #1-3 for "online/free photography course" but 0 AIO citations on Academy landings - recommend pillar blog + FAQPage/HowTo on answer content, not just product pages.

---

7. Tracking, revenue, and dashboard classification

7.1 Booking sheet (revenue truth)

* Category: 12. Academy
* Landing attribution: booking_sheet_transactions.landing_page_url
* Example: /free-online-photography-course - 60 transactions, £2,318 total (all-time sample; period filters vary)
* Rolled in booking_sheet_monthly_wide and Revenue Funnel Academy panel (revenue-funnel-academy-economics.js)

7.2 AI GEO Audit (ai-geo-audit repo)

Mechanism | Academy treatment
classifyPageSegment | /free-online-photography-course -> education (not money)
/academy/* | Often money via commercial-tier tokens
Tier E CSV | free-online-photography-course, academy/login, academy/upgrade
Portfolio GSC segment academy | Only canonical lead page
page_indexability_policy | No Academy-specific rows (May 2026)
GSC sync fix | STRATEGIC_PAGES allowlist in backfill-money-page-timeseries.js - Academy URLs were dropped from audit money-page filter before fix

7.3 Memberstack trial metrics (dashboard)

Separate from booking sheet: trial starts, trial-to-paid %, blended AOV ~£73 (investigation doc figures).

---

8. Backend architecture

8.1 Vercel app (alanranger-modules.vercel.app)

Repo folder: Academy/alanranger-academy-assesment/

Endpoint area | Purpose
api/admin/trial-expiry-reminder-webhook.js | Day -7, -1, +7 emails
api/admin/lapsed-trial-reengagement-webhook.js | REWIND Day +20/30/60
api/admin/orphaned-members-webhook.js | Incomplete signup emails
api/admin/refresh.js | Memberstack sync to ms_members_cache
api/admin/cleanup-cron.js | Remove orphaned accounts
api/academy/trial-status.js | Dashboard SAVE20 window
api/academy/reengage-redirect.js | Signed email links
api/stripe/create-upgrade-checkout.js | SAVE20/REWIND checkout sessions
api/stripe/webhook.js | Updates academy_trial_history on conversion
pages/academy/admin/emails.js | Admin template editor

8.2 Supabase tables (Academy project)

Table | Role
academy_email_events | Send log per stage
academy_email_templates | Editable subject/body_md
academy_email_schedules | Future dispatcher metadata
academy_trial_history | Trial dates, conversion, REWIND tracking
ms_members_cache | Member email, plan snapshot
academy_events, module_results_ms | Activity blocks in emails
academy_config | Trial duration (14 days)

8.3 Secrets (do not publish in public docs)

MEMBERSTACK_SECRET_KEY, CRON_SECRET, ORPHANED_WEBHOOK_SECRET, REENGAGE_LINK_SECRET, SUPABASE_SERVICE_ROLE_KEY, Stripe keys, Gmail SMTP - stored in Vercel env only.

---

9. Squarespace code injection map

Location | File / label | Role
Header | Memberstack v2 single install | app_cmjlwl7re00440stg3ri2dud8 - never remove
Footer | Academy router v4.3.3 | Login redirect, UI suppression
Footer | Global guard v1 | Trial path protection - no duplicate routers
Page body | Login snippet v4 | /academy/login
Page body | Dashboard snippet | /academy/dashboard
Page body | Funnel rewrites 02, 03 | Canonical + banner pages

URL mapping | /academy/trial-expired -> /academy/dashboard 301 | Recommended
URL mapping | /online-photography-course -> canonical 301 | Active

---

10. Constraints - do not break

Item | Why
Memberstack header script + app ID | All auth breaks
Router v4.3.3 (replace v4.3.2 if still present) | Wrong redirects / loops
Duplicate global guard + router | Double redirects
arpLoginBtn, arpTrialBtn, arpAnnualBtn | Login JS
Stripe price IDs (trial + annual) | Wrong plan/charge
data-ms-modal / data-ms-price:add on CTAs | Checkout won't open
#arp-upgrade-checkout-btn | Expired-trial revenue
REWIND webhook gates (3 max, day gaps) | Over-emailing / compliance
Orphan 8h cleanup pairing | Account hygiene
/api/academy/trial-status + dashboard modal | SAVE20 auto-apply

---

11. Safe to change for landing optimisation

* Squarespace body code blocks from academy-funnel-rewrites/ (02, 03)
* Banner editor copy on /free-photography-course (heading, body, button label/URL)
* Hero, FAQ, inline Course + FAQPage JSON-LD on canonical page
* SEO title/meta in Squarespace
* Email copy via admin Emails tab (writes academy_email_templates)
* Blog/pillar content for AIO (separate URLs)

Do not remove newsletter form at bottom of canonical without redirect strategy - it captures warm leads and redirects to canonical.

---

12. Investigation findings and open actions (May 2026)

Issue | Status
GSC sync dropped Academy URLs | Fix in backfill-money-page-timeseries.js STRATEGIC_PAGES - run backfill
AIO zero citations on Academy queries | Content plan: pillar + satellites - not code
Landing friction (FUD before CTA, duplicate forms) | Rewrites drafted v3.2 / v4
/academy/trial-expired dead-end | 301 to dashboard + modal
Trial demand/conversion collapse | Measure after GSC fix + page deploys

False lead corrected: Sparse academy_email_events before Apr 2026 was Zapier->in-house cutover, not "emails weren't sending."

---

13. Six-month performance snapshot (admin engagement data)

This section mirrors what the [Academy admin Engagement tab](https://alanranger-modules.vercel.app/academy/admin/engagement) shows: trial signups, paid conversions, member usage (logins, sessions, module opens, exams), and booking-sheet revenue attributed to the canonical landing page.

Data sources (queried 4 June 2026):

Source | Supabase project | Tables
Trials & conversions | Academy dqrtcsvqsfgbqmnonkpt | academy_trial_history
Member usage | Academy | academy_events (login, module_open), module_results_ms
Member plans (current) | Academy | ms_members_cache
Lifecycle emails sent | Academy | academy_email_events
Landing-page revenue | AI GEO Audit igzvwbvgvmzvvzoclufx | booking_sheet_transactions
Public page traffic (GSC) | AI GEO Audit | gsc_page_timeseries - empty for Academy URLs until backfill (see Section 12)

Note on the six-month window: academy_trial_history starts 5 January 2026 (first trial). There are no trial rows in December 2025. The table below is January-June 2026 (June is partial through 4 Jun). Booking-sheet rows exist for Dec 2025 on the canonical landing URL.

How to refresh: Re-run SQL in Academy Supabase or open Engagement tab periods (7d / 30d / 90d / All). API: GET https://alanranger-modules.vercel.app/api/admin/engagement?period=90d (admin-authenticated in practice).

13.1 Master monthly table (Jan-Jun 2026)

Month | Trial signups | Paid conversions (by converted_at month) | Cohort conversion % (converted / trials started that month) | Member logins | Module opens | Active members (any login/open) | Approx. sessions (30m gap) | Exam attempts | Booking txns (canonical landing) | Booking £ (canonical landing)
2026-01 | 68 | 1 | 5.9% (4/68) | 598 | 275 | 53 | 118 | 135 | 8 | £553
2026-02 | 55 | 1 | 3.6% (2/55) | 755 | 277 | 70 | 215 | 160 | 2 | £158
2026-03 | 42 | 4 | 2.4% (1/42) | 854 | 344 | 55 | 206 | 54 | 4 | £316
2026-04 | 28 | 1 | 3.6% (1/28) | 1,042 | 357 | 43 | 209 | 19 | 1 | £59
2026-05 | 15 | 2 | 6.7% (1/15) | 341 | 56 | 29 | 84 | 10 | 3 | £217
2026-06 (partial) | 1 | 0 | 0% | 43 | 0 | 6 | 10 | 3 | - | -
6-month total | 209 | 9 | 4.3% overall | 3,633 | 1,309 | - | 842 | 381 | 18 | £1,303

How to read two conversion columns:

* Paid conversions (by month) - count of members whose converted_at falls in that calendar month (can include trials that started in an earlier month; e.g. March 2026 shows 4 paid conversions while only 1 of March's 42 trials had converted by snapshot time).
* Cohort conversion % - of members who started a trial that month, how many have ever converted (converted_at not null), as of 4 Jun 2026.

13.2 Trend interpretation (for Claude / optimisation work)

Signal | Observation
Trial demand | Signups fell 68 ? 15 Jan?May (?78%); June MTD 1. Aligns with Revenue Funnel "trial collapse" investigation.
Conversion rate | Blended ~4.3% trial?paid over Jan-Jun cohorts (9 paid / 209 trials). Healthy SaaS benchmarks are often 10-25%.
Member usage | Logins peaked Apr 2026 (1,042) then dropped sharply in May (341) as fewer new trials entered; module opens followed same shape.
Exams | Attempts 135 (Jan) ? 10 (May) - engagement concentrated in early trial months.
Email automation | In-house sends logged from Apr 2026 (day-minus-7, day-minus-1, day-plus-7); large REWIND batch Apr 2026 (day-plus-20: 134 sent). Pre-Apr trial emails were Zapier (not fully in academy_email_events).
Booking sheet (landing attribution) | 18 txns / £1,303 Dec 2025-May 2026 with landing_page_url containing /free-online-photography-course (category typically 12. Academy). Not the same as Stripe trial count - includes historical product bundles.

13.3 Current membership snapshot (ms_members_cache, 4 Jun 2026)

Metric | Count
Total members in cache | 208
On trial plan now | 191
On paid annual now | 16

13.4 Public funnel traffic (visitors - not in Engagement DB)

The Engagement tab does not store Squarespace/GSC page views. Use Google Search Console (or AI GEO Audit after STRATEGIC_PAGES backfill).

Reference snapshot (GSC, last 28 days, May 2026 investigation - not in gsc_page_timeseries at time of fix):

Page | Clicks (28d) | Impressions (28d) | CTR | Avg position
/free-online-photography-course | 660 | 47,600 | 1.4% | 14.3

/academy/login | 6 | 222 | 2.7% | 6.7

Implied funnel (order of magnitude): ~660 organic clicks/month to canonical page vs ~15-68 trial signups/month ? rough 2-10% click-to-trial (varies by month; not measured precisely in DB).

13.5 Engagement dashboard - metric definitions

UI metric | Definition | Source
Trial signups (sparkline) | New rows in academy_trial_history by trial_start_at week | weekly_series.trial_signups
Conversions (sparkline) | converted_at by week | weekly_series.conversions
Logins | academy_events.event_type = 'login' | Events table
Sessions | Logins separated by >30 minutes gap per member | Same (engagement API logic)
Module opens | event_type = 'module_open' | Events table
Active members | Distinct member_id with login or open in period | Events table
Exam attempts | Rows in module_results_ms | Exams aggregate
Top paths / categories | Most opened module paths | Events table

Admin URL: https://alanranger-modules.vercel.app/academy/admin/engagement
Related tabs: Members, Activity, Exams, Ghost, Q&A, Emails (same host).

13.6 SQL to reproduce (Academy Supabase)

```
-- Monthly trials + cohort conversions
SELECT to_char(trial_start_at, 'YYYY-MM') AS month,
    COUNT(DISTINCT member_id) AS trial_signups,
    COUNT(DISTINCT member_id) FILTER (WHERE converted_at IS NOT NULL) AS cohort_converted
FROM academy_trial_history
WHERE trial_start_at >= '2026-01-01' AND trial_start_at < '2026-07-01'
GROUP BY 1 ORDER BY 1;

-- Paid conversions by conversion month
SELECT to_char(converted_at, 'YYYY-MM') AS month,
    COUNT(DISTINCT member_id) AS paid_conversions
FROM academy_trial_history
WHERE converted_at >= '2026-01-01' AND converted_at < '2026-07-01'
GROUP BY 1 ORDER BY 1;

-- Usage
SELECT to_char(created_at, 'YYYY-MM') AS month,
    COUNT(*) FILTER (WHERE event_type = 'login') AS logins,
    COUNT(*) FILTER (WHERE event_type = 'module_open') AS module_opens,
    COUNT(DISTINCT member_id) AS active_members
FROM academy_events
WHERE created_at >= '2026-01-01' AND created_at < '2026-07-01'
GROUP BY 1 ORDER BY 1;
```

---

14. Appendix - default email bodies (verbatim)

Source: lib/emailTemplateDefaults.js (used when no DB override in academy_email_templates).

14.1 Day -7 - Mid-trial reminder

Subject: You're Halfway Through Your Free Trial - 7 Days Left

Body:

Hi {{firstName}},

You're halfway through your 14-day free trial of the Alan Ranger Photography Academy - 7 days to go. This is the point where most members go from browsing to actually applying something, so the next week is where the Academy really starts to pay back the time you've put in.
{{activityBlock}}
A suggested plan for your next 7 days

1. Read the four foundation modules - Exposure Triangle, Aperture, Shutter Speed, and ISO. Together they unlock nearly every decision you'll make with your camera.
2. Take the four matching exams - they're quick, and they turn "I've read it" into "I know it", with a pass certificate for each.
3. Try practice packs 7, 8, 9 and 10 - small structured shooting assignments that move the foundation skills from theory into your camera bag.
4. Pick one field checklist and take it on your next shoot - the value usually lands on the first real outing you use one.
5. Ask one question - drop something in Q&A or throw it at Robo-Ranger. Members who engage here tend to progress fastest.

What Academy members have gone on to do

Members who've stayed have gone on to win photography competitions, pick up paid photography work as side hustles or small businesses, earn professional qualifications like RPS Licentiate, and - most commonly of all - simply enjoy their cameras far more, coming home with photos they're genuinely proud of rather than feeling lost in settings and menus.

Want to lock in annual access now?

Full annual membership is £{{annualPriceGbp}}/year - that's less than a single coffee a week - and everything you've already built (progress, bookmarks, notes, quiz scores) stays on your account.

Click the personal link below and we'll take you straight to your Academy dashboard. If your session has expired, your email address will be pre-filled on the login screen, so all you need is your password:

{{upgradeUrl}}

Your trial expires on {{expiryDate}}. Whenever you're ready - and any questions, just reply to this email.

Best regards,
Alan Ranger

14.2 Day -1 - Final-day reminder

Subject: Your Academy trial ends tomorrow - keep everything you've built

Body:

Hi {{firstName}},

Your 14-day free trial of the Alan Ranger Photography Academy ends tomorrow ({{expiryDate}}). After that, the modules, practice packs, exams and Robo-Ranger access pause - but your account stays put, with everything you've built still on it.
{{activityBlock}}
Three quick wins before it ends

1. Take one exam - 10 minutes each, and you walk away with a pass certificate whether you upgrade or not.
2. Download one field checklist - the one-page PDFs are yours to keep and will come on every shoot with you.
3. Ask Robo-Ranger one question - on gear, technique or next steps. Members tell us this is the moment it clicks how much time it saves them.

Members-only resources you keep for the full year

* 30 Assignment Practice Packs - step-by-step field exercises built around Alan's frameworks
* 35 One-page Field Checklists - print-ready PDFs for every shoot scenario

* 741-page Searchable eBook - every module in one printable PDF, yours for life
* Caring for Your Assets guides - backup routines, sensor cleaning, camera maintenance
* Applied Learning Library - 22+ scenario-based guides (portraits, product, property, landscape, close-up & food) - expanding monthly
* Royal Photographic Society Accreditation pathway - 10-module route towards a formal qualification
* All new modules, new exams and new features released each month - included for the life of your membership, at no extra cost

And everything else in the Academy continues too:

* 60 training modules - in-depth articles with practical examples, graphics and example images across settings, composition, gear, genres and post-processing
* 35 one-page field checklists - print-ready PDFs for every shoot scenario
* 30 practice packs - self-paced assignments built around Alan's frameworks and guidance
* 15 exams with downloadable certificates - individual pass certificates with score details, plus a master certificate once you complete them all
* 741-page searchable eBook - every module in a printable PDF, yours for life
* Applied Learning Library - 22+ scenario-based guides across portraits, product, landscape, close-up and more (expanding monthly)
* Pro photographer toolkit - exposure calculator, print size calculator, style quiz, Hue test
* Robo-Ranger AI assistant - on-demand answers on technique, gear and Academy content
* Direct messaging & Q&A with Alan - message Alan with questions and join the live Q&A sessions

Lock it in before tomorrow

Full annual membership is £{{annualPriceGbp}}/year - less than a single coffee a week - and everything you've already built (progress, bookmarks, notes, quiz scores) stays on your account.

Click the personal link below and we'll take you straight to your Academy dashboard. If your session has expired, your email address will be pre-filled on the login screen, so all you need is your password.

{{upgradeUrl}}

Your trial expires on {{expiryDate}}. Whenever you're ready - and any questions, just reply to this email.

Best regards,
Alan Ranger

14.3 Day +7 - SAVE20 recovery

Subject: Your Academy trial ended - {{couponCode}} is yours for {{daysLeft}} more {{daysWord}}

Body:

Hi {{firstName}},

Your 14-day free trial of the Alan Ranger Photography Academy ended on {{expiryDate}}, so full access has now paused - but your account is still here with everything you'd built on it.
{{activityBlock}}
Here's an offer to pick up where you left off

Upgrade to full annual membership for £{{annualPriceGbp}}/year, and for the next {{daysLeftPhrase}} the code {{couponCode}} takes £{{save20DiscountGbp}} off your first year - bringing it down to just £{{save20PriceGbp}}. That's less than a single coffee a week for the whole year.

Three quick wins the moment you're back in

1. Jump back into the module you last opened - pick up where you left off, no hunting required.
2. Download one field checklist - the one-page PDFs are yours to take on your next shoot.
3. Take the first 10-minute exam - short, focused, with a pass certificate to show for it.

Members-only resources you keep for the full year

* 30 Assignment Practice Packs - step-by-step field exercises built around Alan's frameworks
* 35 One-page Field Checklists - print-ready PDFs for every shoot scenario
* 741-page Searchable eBook - every module in one printable PDF, yours for life
* Caring for Your Assets guides - backup routines, sensor cleaning, camera maintenance
* Applied Learning Library - 22+ scenario-based guides (portraits, product, property, landscape, close-up & food) - expanding monthly
* Royal Photographic Society Accreditation pathway - 10-module route towards a formal qualification
* All new modules, new exams and new features released each month - included for the life of your membership, at no extra cost

And everything else in the Academy unlocks again:

* 60 training modules - in-depth articles with practical examples, graphics and example images across settings, composition, gear, genres and post-processing
* 35 one-page field checklists - print-ready PDFs for every shoot scenario
* 30 practice packs - self-paced assignments built around Alan's frameworks and guidance
* 15 exams with downloadable certificates - individual pass certificates with score details, plus a master certificate once you complete them all
* 741-page searchable eBook - every module in a printable PDF, yours for life
* Applied Learning Library - 22+ scenario-based guides across portraits, product, landscape, close-up and more (expanding monthly)
* Pro photographer toolkit - exposure calculator, print size calculator, style quiz, Hue test
* Robo-Ranger AI assistant - on-demand answers on technique, gear and Academy content
* Direct messaging & Q&A with Alan - message Alan with questions and join the live Q&A sessions

Upgrade in one click

Click the personal link below and we'll take you straight to your Academy dashboard, with {{couponCode}} already applied in the upgrade modal. No codes to type in, no separate checkout page. If your session has expired, your email address will be pre-filled on the login screen, so all you need is your password.

{{upgradeUrl}}

{{couponCode}} only runs for {{daysLeftPhrase}} from today - after that the discount closes and annual membership returns to full price at £{{annualPriceGbp}}.

Any questions, just reply to this email.

Best regards,
Alan Ranger

14.4 Day +20 / +30 / +60 - REWIND20 (shared body)

Subjects: See Section 5.3.

Body:

Hi {{firstName}},

It's been around {{daysLapsed}} days since your Alan Ranger Photography Academy trial ended - and you didn't end up joining. That's completely fine; people pick up free trials all the time and life gets in the way.
{{activityBlock}}
But I wanted to reach out with one honest reason to give the Academy another look: it has grown a lot since your trial, and for the next 7 days only I'd like to offer you £{{save20DiscountGbp}} off your first year of annual membership with the code {{couponCode}} - £{{annualPriceGbp}} down to £{{save20PriceGbp}} for a full 12 months.

Three quick wins the moment you're back in

1. Jump back into the module you last opened - we'll take you right back to where you stopped.
2. Download one field checklist - the one-page PDFs are yours to keep and take on every shoot.
3. Take one 10-minute exam - short, focused, with a pass certificate you keep whether you upgrade or not.

Members-only resources you keep for the full year

* 30 Assignment Practice Packs - step-by-step field exercises built around Alan's frameworks
* 35 One-page Field Checklists - print-ready PDFs for every shoot scenario
* 741-page Searchable eBook - every module in one printable PDF, yours for life
* Caring for Your Assets guides - backup routines, sensor cleaning, camera maintenance
* Applied Learning Library - 22+ scenario-based guides (portraits, product, property, landscape, close-up & food) - expanding monthly
* Royal Photographic Society Accreditation pathway - 10-module route towards a formal qualification
* All new modules, new exams and new features released each month - included for the life of your membership, at no extra cost

And everything else in the Academy unlocks again:

* 60 training modules - in-depth articles with practical examples, graphics and example images across settings, composition, gear, genres and post-processing
* 35 one-page field checklists - print-ready PDFs for every shoot scenario
* 30 practice packs - self-paced assignments built around Alan's frameworks and guidance
* 15 exams with downloadable certificates - individual pass certificates plus a master certificate when you complete them all
* 741-page searchable eBook - every module in a printable PDF, yours for life
* Applied Learning Library - 22+ scenario-based guides across portraits, product, landscape, close-up and more (expanding monthly)
* Pro photographer toolkit - Exposure Calculator, Print Size Calculator, Photography Style Quiz, Colour IQ / Hue Test
* Robo-Ranger AI assistant - on-demand answers on technique, gear and Academy content
* Direct messaging & Q&A with Alan - message Alan with questions and join the live Q&A sessions
* New modules and exams planned through 2026 - the syllabus is actively growing, not frozen
* RPS Accreditation pathway (coming soon) - routes to Licentiate and Associate with resources to support your panel

What Academy members have gone on to do

I don't want to oversell this, but I think it's worth saying plainly: Academy members have gone on to win photography competitions, launch paid photography work as side hustles or small businesses, earn professional qualifications and accreditations, and - most commonly of all - simply enjoy their cameras far more, coming home with photos they're genuinely proud of rather than feeling lost in settings and menus.

Twelve months is usually long enough for a committed learner to make a real leap forward in their photography - and at £{{save20PriceGbp}} for the entire year, that's a little over £1 a week for everything listed above.

Ready to come back?

Click the personal link below - we'll take you straight to your Academy dashboard with the upgrade offer already open and {{couponCode}} applied, no codes to type. If you're not still signed in, your email address will be pre-filled on the login screen, so all you need is your password:

{{dashboardUrl}}

This personal offer is open for 7 days from today. After that, {{couponCode}} closes for your account and annual membership returns to the standard £{{annualPriceGbp}}/year.

Any questions - technical, creative, or "is this right for me at all?" - just reply to this email.

Best regards,
Alan Ranger
